I am a owner-operator who trucks for a living. I depend on XM satellite radio for traffic and weather information because it gives me the information other stations do not. It provides variety and quality which I do not find in regular stations. I pay for these services and it should not be up to NAB to dictate what I can listen to. I urge the FCC to reject the NAB's petition 04-160 and I support XM's ability to provide the kind of programming that I demand and deserve.  
Respectfully,

John Claude
